

PNT 2100 The key to making electronic scale simpler.

The **Model 2100** In-cab Meter from PN Technologies is used in all on-board scale applications requiring dual channel weight displays. Total vehicle weight is displayed as well as individual tractor and trailer weights. The PNT 2100 meter can be set to cycle automatically between individual channel weights and total weight displays. The operator can press the cycle button at any time to stop and monitor any channel desired.

- **100 % Compatible with 9100GW**
- **Two channel** models for **long** and **short loggers, B-trains** and **chip vans**.
- **Large, Super-Bright Red** seven-segment LEDs Display.
- **Two-wire** (non-polarity sensitive) digital technology.
- An **Advanced Calibration** function for calibrating the scale without a load.
- **Rugged** and **reliable design** tested over all environments.
- **Quick** and **simple calibration**.
- **Simple diagnostics** allow quick testing of each system component.
- **Compatible with all models of On-board scale load cells and sensors**.
- **Transmitters** built of heavy-gauge stainless steel.

Complete Conversion Kit:

- (1) PNT 2100 Meter
- (2) PNT 8705 Transmitter
- (1) 216-80, 80ft Trailer Cable
- (1) 216-35, 35ft Truck Cable
- (1) 218-15, 15ft Power cable
